(E) Methods of Targeting		
		<p>NCHAF has committed to targeting vulnerable applicants who fall at or below the 100% Area Median Income or U.S. Median Income, whichever is greater. Out of the 15,394 households served, as of the time of this report, 14,939 (97.04%) of these applicants are within this standard. NCHAF prioritized counties (43) and census tracts (514) identified in the program's updated Needs Assessment as North Carolina's most economically distressed and socially disadvantaged homeowners. The Program has received applications from all 43 of the 43 prioritized counties, totaling 4,287 applications during this reporting period.</p> <p>To further pinpoint vulnerable communities, our team also focused outreach solicitation utilizing the following priorities: <u>The 43 targeted counties were placed in three (3) priority groups based on:</u> Persistent Poverty; Low NCHAF program participation, relative to the size of their homeownership population; and Presence of a majority-minority census tract within the county. <u>Census tracts in urban counties were prioritized based on:</u> Areas of Concentrated Poverty, Community Reinvestment Act low- and moderate-income tracts, Qualified Census Tracts, and Racially/Ethnically Concentrated Areas of Poverty and/or are majority-minority census tracts. <u>The 514 targeted census tracts were placed in four (4) priority groups based on:</u> Federally designated AND majority minority in an urban county (188 tracts); Majority minority in an urban county but is NOT federally designated (196 tracts); Federally designated in an urban county but is NOT majority minority (97 tracts); and Majority minority tracts outside of the urban or targeted counties (33 tracts).</p> <p>Over a period of six months, 970 contacts were made to active local organizations and nonprofits in our six-month Phase II outreach campaign to continue to raise program awareness and solicit support for increasing program footprint and amplification of available funds in target communities. These organizations accepted printed NCHAF materials, downloaded our virtual partner toolkit, or hosted a virtual informational. To date, the following materials have been shared with partner organizations across the State: 293 posters, 3,170 rack cards, 2,116 door hangers, and 12,662 fliers. Beginning April 24, 2023, NCHAF completed a phased text campaign over six-weeks, reaching 5,872 homeowners using identified targeted strategies. Beginning May 8, 2023 and ending the week of June 12, 2023, using the identified targeting, NCHAF outreach executed a direct mail campaign reaching a total of 6,385 homeowners. These organizations included social services agencies, community action agencies, community centers, public libraries, houses of worship and faith-based entities, non-profits, and other high-foot traffic locations in targeted communities.</p> <p>NCHAF engaged community partners to distribute materials at pre-existing community events to help spread program awareness. Over a period of six months, 14 outreach events and 11 virtual informational sessions were scheduled in coordination with local and statewide partners. In addition, all North Carolina County tax offices received a program letter, poster and flyers to display in their offices.</p>
E1	Please provide an update on your targeting plan including challenges, successes, etc.	
E2	Is the targeting plan put forth in the HAF Plan achieving the desired results?	Yes
(F) Best Practices & Coordination		
F1	Have you coordinated with any of these agencies? (FHA, VA, USDA, GSE's, State or Local Agencies that hold mortgage portfolios)	<p>NCHAF and NCHFA staff have attended and participated in bi-weekly industry collaboration meetings hosted by US Treasury and regularly attended by GSE's various mortgage servicers, including those with FHA and VA portfolios. USDA is an executed servicer with the NCHAF Program. ServSolutions is a State Agency that holds mortgage portfolios and is an executed servicer with the NCHAF Program.</p>
F2	Have you coordinated with servicers?	<p>The NCHAF program has coordinated with 230 servicers and has received signed and executed Collaboration Agreements with all 230 to promote a standardized working relationship. An agency-to-Servicer agreement facilitates standard practices and boundaries which allows the program to work with Servicers that have a high volume of borrowers who apply to the program.</p> <p>Additionally, NCHAF has been in constant contact with Servicers for onboarding to the CDF process and use of CDF Transmissions to validate debt and confirm accuracy of payment(s). Out of the full population of current servicers (230), 140 have been credentialed and trained to participate in CDF transmissions. The remaining 90 servicers complete debt verification activities through Non-CDF methodology in careful coordination with NCHAF staff. Ongoing training and troubleshooting is also available to any Servicers with ongoing questions or issues. Examples of this include meetings upon request and meetings which are recurring in nature (weekly, biweekly, and monthly) technical calls held with servicers such as Mr. Cooper, Serv Solutions, PHH, Wells Fargo, SECU, Loan care, Vanderbilt, etc.)</p> <p>The program has connected regularly with HAF participants on best practices during ongoing meetings and information sessions, including monthly marketing and outreach meetings, bi-weekly CDF operational discussions, and industry collaboration meetings hosted by the National Council of State Housing Agencies (NCSHA).</p>
(G) Certification		
During the last fiscal year the NCHAF program earned \$93,297.10 in interest which was remitted to the Department of Health and Human Services Payment Management System (PMS) as required by 2 CFR 200.302(b)(9)(ii).
